

The American Institute of Architects Continuing Education Systems

AIA/CES Registered Provider Program Summary Handout

Provider: Nova Polymers, Inc.
Program #: 08RMID
Program: ADA Requirements for Room Identification Signs

Length: 1 hour
Credits: 1AIA CES LU
HSW: Yes

Description: This course will educate the attendee about current ADA requirements as it relates to room identification signs, and will also provide education about the most commonly used material (photopolymer) for ADA compliant signage

A/V Needs: Electrical power and screen for the PowerPoint slide presentation. The CES facilitator will supply the laptop and projector.

Learning Objectives: After completion of this course, participants will be able to:

- Be able to answer the questions: "What is the ADA"
- Know where to find regulations relating to ADA compliance.
- Know what portion of the Federal ADAAG applies specifically to signage
- Identify areas of a building require ADA compliant signage
- States & the ADA, California Title 24 and how it applies to signage
- Manufacturing of a photopolymer sign
- Understanding photopolymer, application and technical characteristics

Target Audience: Architects, specifiers, interior designers, owners and other design professionals. The ideal audience size can be 10-150 people. This program meets the needs of professionals at every experience level.

Costs: There is no cost to bring this program into your firm or chapter meeting.

How Taught: The CES facilitator utilizes a PowerPoint presentation to provide an in-depth overview for how to specify signage in accordance with current ADA guidelines.

This course is an interactive session that encourages feedback and questions.

The program concludes with a review of the processes by which ADA compliant signage is manufactured.
